CHARACTERISTICS OF THE EDUCATIONAL DISCIPLINE

The **purpose** of studying the discipline: understanding the legal and special nature of crime and punishment in international criminal law and the relevant norms, the relationship of this discipline with other disciplines; the formation of students' knowledge of the essence of modern international criminal law.

Objectives of studying the discipline:

- to expand the legal horizons of students;

- to give students knowledge about the main problems of international criminal law, its subject matter, principles and methods, action in time and space;

- to develop among students a scientifically grounded understanding of crime and responsibility under international criminal law;

- to form an idea of the mechanism of interaction between international criminal law and national criminal legislation;

- to study the mechanism of cooperation in the fight against international crime in various forms of its manifestation;

- to develop students' skills and abilities of the correct application of the norms of international criminal law.

Discipline policy (indicators of competence formation):

UK-5.1. Analyzes the most important ideological and value systems that have formed in the course of historical development; substantiates the relevance of their use in social and professional interaction;

UK-5.3. Ensures the creation of a non-discriminatory environment for interaction when performing professional tasks
